

Final Tool MKII

The Final Tool MKII turntable provides all the advantages only a true mass turntable can deliver. The 28 kg Final Tool MKII provides rock solid bass, stable and focused midrange and a clear and detailed high frequency reproduction. The low noise level comes courtesy of our unique tidorfolon bearing, external motor and Alpha regenerative power supply. This turntable includes height adjustable feet and is also upgradeable to a silencer platter from our higher level turntables. The Final Tool MKII is our best selling table and stands for all Acoustic Signature is known worldwide.

What the press says:

Stereoplay/Germany

„Everything is perfect on this turntable!“ Best Value Highlight/Reference.

Stereophile: „TheFinal Tool was the smoothest running and/or best isolated conventional motor I've ever encountered at any price!“ „...the FinalTool - with it's solid construction, superb bearing, sophisticated electronic motor drive, provision for multiple tonearms, and a heavy, oversized, well damped platter - might be the the best value outthere“ „...nothing at this price point compares in terms of built quality.“ (Michael Fremer Sterophile)

Stereotimes: ..and is strong contender not only in its price range, but also compared to far more expensive tables. Combining the bass power and soundstaging capacities of popular high-end“audiophile“ tables with the dancing and singing rhythmic abilities of the „musicophile“ UK tables, the Final Tool will appeal tothose who want it all.
